As you navigate this new normal and online world, be sure to protect yourself and your students.

Be cautious of the following:

- FERPA, Utah FERPA, and other state laws
- Digital resources that require school counselors or students to create online accounts
- Digital resources that have copyright restrictions
- Digital resources being shared by companies that have temporarily opened their paid-for resources to use for free for a limited time

Due to local control and extensive variation in resources and policies from one district to the next, USBE does not determine which resources should be utilized. School counselors should select resources that align with their school district or charter, the Centers for Disease Control and Prevention (CDC), World Health Organization (WHO), and local health department guidelines.

Strategies for School Counselor Self-Care

This guiding document has outlined resources designed to support students and families during this unprecedented time. However, please be mindful to take care of yourself first. “It is not selfish to refill your own cup so that you can pour into others.”

Self-care is any activity that we do deliberately in order to take care of our mental, emotional, and physical health. Although it’s a simple concept in theory, it’s something we very often overlook.

Here are some simple strategies that might be useful to consider:

- Set and maintain healthy boundaries
- Take a break from watching, reading or listening to news stories… including social media.
- Practice mindfulness strategies such as deep breathing, yoga, stretching, or meditation.
- Unplug – give yourself permission not read email or answer phones for certain time blocks. Set up automatic responses with your availability.
- Create a menu of personal activities that you enjoy:
  - Cooking
  - Fitness
  - Puzzles
  - Family Time
  - Music
  - Reading
  - Gaming
  - Coloring
  - Mechanics
  - Give yourself permission to participate in at least 1 a day!
- Gratitude journal: look for 1–3 things each day that you are grateful for and record it in a journal or notebook.
- Share what you are feeling with others. It normalizes the concern for others & for you.
- Connect with those you care about – Use: Zoom, Google Hangouts, Facetime, Marco Polo, etc.
- Recognize and address signs & symptoms of Compassion Fatigue.
